STATE BOARD GOVERNANCE

Structure

The Board of Public Education, exercising general supervisory responsibility and in most cases acting on the recommendations of the Superintendent of Public Instruction, has a number of duties prescribed by law concerning the elementary and secondary schools of the state (e.g. accreditation and teacher certification) and governance responsibilities for vocational education. The control and supervision of the School for the Deaf and Blind is vested in the Board of Public Education.

The Board of Regents is vested with full power, responsibility and authority to supervise, coordinate, manage and control the Montana University System and also to supervise and coordinate the community colleges.

The members of the Board of Public Education and the Board of Regents, meeting together, form the state Board of Education which has responsibility for submitting unified budget requests for long-range planning and for coordination and evaluation of policies and programs for the state's educational systems. The Governor serves as president of the State Board of Education.

Membership

The Board of Public Education and the Board of Regents each have seven voting members appointed by the Governor with the consent of the Senate. Neither board may have more than four voting members from the same congressional district nor from the same political party or organization. The term of office for appointed members is seven years, except for the student appointee to the Regents whose term varies.

The Governor, Superintendent of Public Instruction and Commissioner of Higher Education serve as ex officio, non-voting members on both boards.
